

RUPESH KUMAR

Java Backend Developer

+91 6299112949 | rup805131kr@gmail.com | [LinkedIn](#) | [GitHub](#) | Noida, India

PROFESSIONAL SUMMARY

Java Backend Developer interning at Elevate Labs, building REST APIs and backend services with Spring Boot. Full-stack experience with React, hands-on work with MySQL/MongoDB, and current focus on applying Spring AI to integrate AI-driven features into backend systems.

WORK EXPERIENCE

Java Developer — Intern | *Elevate Labs*

Jun 2026 – Present

- Built and maintained REST API endpoints for backend services using Spring Boot within an agile engineering team.
- Worked hands-on with production codebases, participating in code reviews and following Git-based version control workflows to ship changes safely.
- Collaborated with senior engineers to debug and resolve backend issues, strengthening practical knowledge of Spring Boot's request lifecycle and service layer design.

PROJECTS

Food Delivery Full-Stack Application | [GitHub](#) | *Self Project*

Jun 2026 – Present

- Developed a full-stack food delivery platform using Spring Boot (backend) and React (frontend).
- Built REST APIs covering authentication, restaurant listings, menu management, cart, and order processing.
- Integrated MongoDB for document-based data storage, handling CRUD operations across all core modules.
- Designed a responsive React UI with client-side form validation and centralized backend exception handling.

Technologies: Spring Boot, React, MongoDB, REST APIs, JWT Authentication

ATM Simulation System | [GitHub](#) | *Self Project*

Feb 2026 – Mar 2026

- Built a desktop banking application in Java Swing backed by a MySQL database.
- Implemented core banking features: login, account creation, deposit, withdrawal, balance enquiry, and mini statement generation.
- Connected Java to MySQL via JDBC and applied OOP principles (encapsulation, modularity) throughout the codebase.
- Designed a modular, layered architecture to keep transaction handling secure and maintainable.

Technologies: Java, JDBC, MySQL, Java Swing

SKILLS

Languages: Java, JavaScript, SQL, C

Backend: Spring Boot, Spring AI (in progress), JDBC, REST API Design

Frontend: React

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, IntelliJ IDEA, Postman

Core CS: Object-Oriented Programming (OOP), DBMS, Computer Networks (CN), Operating Systems (OS)

PROBLEM SOLVING

- Solved 100+ Data Structures & Algorithms problems across LeetCode and GeeksforGeeks.
- Strong grounding in Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Recursion, Searching, and Sorting.
- Focused on writing time- and space-optimized solutions, with attention to Big-O tradeoffs.

EDUCATION

B.Tech, Computer Science & Engineering (IoT) | *Greater Noida Institute of Technology (GNIoT)* 2022 – 2026

- CGPA: 7.91 — First Division with Distinction

CERTIFICATIONS

- Data Structures & Algorithms** — iFACET, IIT Kanpur (Feb 2025 – Jul 2025)
- Cloud Computing** — NPTEL, IIT Kharagpur (Jul 2025 – Oct 2025)
- Academic Achievement Award** — Greater Noida Institute of Technology, GNIOT (Feb 2025)
